

The Marquis himself!

**Certificate
of
Endurance**

Course Management!

WHEREAS I have been informed by **Course Management** that
A. Student

has attended *every* lecture this semester in Math 151,

THEREFORE I proclaim that this person has done the scholarly equivalent of
Swimming the Atlantic & Walking across the Sahara & Climbing Mount Everest.

and THEREFORE I confer upon this student membership in the

Order of the Severely Bored and Infinitely Conscientious
[Calculus Division]

SIGNED

**Guillaume François Antoine
Marquis de L'Hôpital**

$\frac{0}{0}$

Author of *Analyse des infiniment petits pour l'intelligence des lignes courbes*
"... (1696) ... the first text-book to be written on the differential calculus."
