640:311:09 FALL 1994

311 students:

I would like to make a list of students' names, (local) telephone numbers, and e-mail addresses (if any). My intent is to make it easier for students in the course to get in touch with each other, and to work with and help each other. **If** you wish your name and accessory information to be distributed to other students (this is **not** obligatory!) please fill out the spaces below. I will compile and reproduce a list and distribute it at the next class.

Name (please print!)	**Local 'phone #**	**E-mail address**
